English/Spanish tandems : Enhance your language skills

An original way of developing your Spanish/ English language skills through contact with a student whose mother tongue is the language you wish to learn and practise. In return you will be expected to help your « tandem partner » learn your own mother tongue.

How long is a typical tandem session?

We recommend sessions of 1 ½ hours (45 minutes in each language).

Where will I do the language tandems?

In the Meeting Point at the CDL, a comfortable space with sofas, a coffee machine and a quiet atmosphere.

What will we talk about?

You can talk about anything but we also have a list of suggested topics to get you started.

Can I receive ETCS credits?

YES! Students will receive 0.35 ECTS for every 7 sessions (45 minutes in each language). Just fill out a student card and get it stamped after each session.
